

SELF-ESTEEM HELD BASIS OF SUCCESS BY IRA LANDRITH

Ira Landrith, former candidate for the vice-presidency on the prohibition ticket, was a speaker at Monday morning's chapel service at Willamette university. Few speakers in the nine months' term get the hearing that the noted "Prohi" got in his shot lecture on "Increased Self-Esteem." After ten minutes of light and entertaining discussion of the dude and "dudette," of the sham college folk of the day, he turned to the serious side of his thought and for five minutes of earnest eloquence pleaded for the doctrine of increased self-esteem. "The doctrine of increased self-esteem is much needed in this twentieth century," he said, "and we have come to the place where we must part company with a lot of superficial ideas in way of thinking and living. 'We are God's man and God's woman, and we have a man's and a woman's work to do in the world,' he further asserted.

In setting forth the realization of this goal—the accomplishment of a man's work in the world—the lecturer left a standard cry in four words: purpose, purity, preparation and persistence. A man never arrives anywhere except through purpose and without purity of thought and character purpose is soon lost, he stated. He emphasized the importance of thorough preparation, including therein the need of college training. Speaking of persistence, he said that purpose, purity, preparation and the goal of life itself, were of no effect without the ever-present element of persistence to fight to the point of attainment. With this point and in relation thereto, the speaker quoted a popular motto of Theodore Roosevelt in conclusion: "When I see a thing is true, I'll put it through."

Relative Increase in Costs And Wages Shown in Report

Washington, Oct. 21.—The cost of living has gone up 75 per cent since 1913, the bureau of labor statistics, department of labor, announced today in a statement comparing the increase in wages to the increase in prices.

Pay of steel workers, the bureau announced, has risen 121 per cent since 1913.

Similar figures for ten other principal industries showed wage increases from 51 per cent for persons working in lumber mills to 84 per cent for those working in sawmills.

In the lumber mills of both kinds, 618,613 persons are employed and in the steel and iron mills 278,072, the report says.

The present freshman class, unwilling to trust its reputation to the winning of the recent bag-rush, has decided to construct a cement sidewalk from the main entrance of Eaton hall to a point of intersection with the State street sidewalk near Kimball college. The class of 1923 voted to construct this walk at a meeting held last week, but not until yesterday's meeting were the funds assured.

Construction will begin the last of this week and will be carried on by freshman labor under the supervision of janitor "Dean" Clark, who will employ two cement men to assist in the work. The administrative end of the work is being handled by Leon Jennings, chairman of the work committee. The fresh met the expense of the construction by levying a 50-cent tax. Marjorie Fiegel, collector for the girls, announced complete collections from the eighty freshmen girls at Monday's session. Kingston Lister reported that all boys except 12 had paid.
